EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Kaminski on 9 November 2005.

The application has been amended as follows:

Insert a "." at the end of claim 2, line 4.

Insert a "." at the end of claim 17, line 4.

The following is an examiner's statement of reasons for allowance: Prior art was not found that explicitly teaches or fairly suggests confirming detection of failures based on the discrepancies among the discrete data, on the suspected bad signals, and on the predicted system states in combination with producing predicted faults based on a stochastic model of the sensor data to produce predicted values of the sensor data from the stochastic model, the predicted faults being based on the predicted values as outlined in claims 1, 9, 15, 23 and 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
